## **DETAILED ACTION**

### ***Election/Restrictions***

The Restriction Requirement of 7/17/06 should not have restricted original patent claims 3-11 out of the present reissue application (MPEP 1450 & 37 CFR 1.176b).

Since the applicant has canceled the non-elected original patent claims 3-11, and in order to remedy the restriction, claims 3-11 have been re-instated and rejoined to the originally elected Group I. Therefore, claims 2-11, 14-16, 20 and 21 remain pending in the current application.

### ***Oath/Declaration***

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. The Reissue Declaration filed 9/16/03 failed to properly identify at least one 35 U.S.C.251 error. It is not sufficient for a declaration to merely state "The claims of the reissue application are broadened by adding new claim 12 corresponding to the recitations of claim 11 but omitting several elements which are not believed to be required for patentability." Rather, the oath /declaration must specifically identify an error. Any error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error. (MPEP 1414 II. (C)). The specific language from the original claims and deleted in the new claims must be positively identified. The differences between the newly added claims 12-17 and the original claims 1-11 must be pointed out (MPEP 1414).

***Final Rejection***

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claims 2-11, 14-16, 20 and 21 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the Declaration is set forth in the discussion above in this Office action.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

***Allowable Subject Matter***

Applicant is advised that the Notice of Allowance mailed is vacated. If the issue fee has already been paid, applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may wait until the application is either found allowable or held abandoned. If allowed, upon receipt of a new Notice of Allowance, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a specified Deposit Account.

Claims 2-11, 14-16, 20 and 21 are allowable over the prior art of record.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
